

# O'BRIEN FAMILY

## SERVING IIN THE US HOME OFFICE

The O'Brien's believe that all people should have an opportunity to hear the Gospel at least once in their lives. It is this core belief that led them to one of the largest unreached people groups in the world. In 2014, they began serving as missionaries and team leaders in Asia. They labored day-to-day in their Asian mega-city to share the Gospel, make disciples, and create a multiplication movement. The O'Briens began Bible studies and saw people's eyes opened to the truth of the Gospel. While serving as missionaries Global Fellowship approached them to transition into new roles at the Global Fellowship International Home Office as the Director of Operations and marketing coordinator. Initially, feeling the burden for the lost in their city they weren't sure if this is what God had for them, however, after months of praying and seeking counsel they felt this is where God is leading them. God confirmed their move to Auburn, CA, and went before them to prepare them for their new work.

It is their joy now to see how their work is affecting the unreached worldwide. They are able to support the mission field from Central Asia to North Africa. They are blessed to be able to develop strategy, coach, and encourage missionaries on the frontlines. It is through their work at Home Office that they see how their impact among the unreached has been expanded beyond their work in Asia.

# BE PART OF BRINGING THE GOSPEL TO UNREACHED PEOPLE

You can partner with the O'Briens by donating to their ministry and joining the prayer network that is dedicated to covering Global Fellowship's missionaries in prayer.
