

L & T have been involved in missions work in their church over the last 15 years.

God set a large, unreached people group deeply into their hearts in 2010 and since then they have been preparing for how God will send them to live and work among those people.

They partnered with Global Fellowship in Spring 2016 and moved to their location in August 2016. Their people group has a population of 12 million people with less than 1,000 believers. L & T are a great duo with complementary strengths that combine to form an effective approach to relational evangelism. They have faithfully served in two different countries to bring the Gospel to unreached people.
