

Global Fellowship

2020 ANNUAL REPORT

2020 IN REVIEW

The global pandemic affected all of Global Fellowship's ministries in 2020. However, when the world was seemingly still, God was moving. Doors were opened, hearts received Jesus as their Savior, and churches were planted in places where there was no church. Many of our church-planters had to transition into relief workers as they realized people in their communities were at risk of starvation without being able to work. Our South and Central Asia teams spearheaded relief efforts in their communities. Our teams brought much-needed medical supplies to the sick, distributed thousands of pounds of food, and prayed over the terminally ill and their families. People were able to hear the Gospel for the first time as a result of these efforts. Our church-planters reported stories of doors previously completely closed to the Gospel being opened to receive needed medical supplies. They shared stories of Muslims coming to the Lord on their deathbed while praying in front of their entire Muslim family. Check out the snapshot of the year below.
